JO SONJA® Matte Flow Acrylic Color Chart

Transform your artwork with **Jo Sonja Matte Flow Acrylic**, a premium flow formula paint that combines the rich opacity of color with the stunning velvet matte finish of traditional gouache. But unlike gouache, these paints are water-resistant and won't chip or crack when cured, ensuring long-lasting vibrancy and durability. Made from the finest quality pure pigments, Jo Sonja colors remain radiant and true for generations, offering a timeless appeal. The best part? Cleanup is a breeze, as these paints are safe, water-based, and wash away easily with soap and water.

Whether you prefer opaque or transparent effects, **Jo Sonja** has you covered. Transparent pigments allow light to shine through, revealing beautiful layers beneath, perfect for glazing techniques. Opaque pigments, on the other hand, provide rich, solid color with deep coverage.

For a little extra sparkle, the brilliant metallic colors are made with high-quality mica pigments, delivering stunning, tarnish-free finishes. These versatile metallics are ideal for stenciling, color bands, highlighting, line work, bronzing, and faux finishes. Mix them with other colors to create striking iridescent effects or apply them directly for dramatic shine.

With a selection of 80 exceptional colors—including metallics—**Jo Sonja Matte Flow Acrylic** is perfect for a wide variety of surfaces, including paper, canvas, wood, fabric, glass, and more. Available in convenient 2.5 US fl. oz. (75 ml) tubes, with select colors also in 8.4 fl. oz. (250 ml) bottles and 0.65 US fl. oz. (20 ml) tube sets.

Key Features:

- 80 beautiful colors, including metallics
- Ideal for paper, wood, canvas, fabric, glass, tin, terracotta, tile, and more
- Water-based, safe, and easy to clean
- Quick-drying with excellent layering capabilities

For fast-drying results, use a hair dryer to speed up the process. The paint layers beautifully without lifting the color beneath, allowing you to build up rich textures and details in minutes. Keep in mind that **Jo Sonja** colors dry slightly darker than they appear when wet, but they'll brighten up with a varnish finish.

Approximate coverage: 1 oz. = 5 sq. ft., 1 ml = 157 sq. cm

Surface, temperature, humidity and paint application can affect any paint's performance. See website for detailed instructions and best practices.

Manufactured by Chroma Acrylics, Inc. in Lititz, Pennsylvania. Made in USA of Domestic and Global Materials.

ASTM

ASTM 1 = Pigments of excellent lightfastness
 ASTM 2 = Pigments of very good lightfastness

SERIES = The number on a paint tube indicates the price and quality level of the pigment used in the paint. The series is a guide that helps artists understand the cost and relative value of different colors.

AP SEAL = The "AP Seal" (Approved Product Seal) is a mark used on art supplies, such as paints, to indicate that the product has been tested and deemed non-toxic to humans when used as intended by the Art & Creative Materials Institute (ACMI).

PROP 65 = Refers to California's Proposition 65, a law that requires products sold in California to carry a warning if they contain chemicals known to cause cancer, birth defects, or other reproductive harm.
www.P65Warnings.ca.gov

PIGMENT DESCRIPTION:

LF = Lightfast
 PB = Pigment Blue
 PBk = Pigment Black
 PBr = Pigment Brown
 PG = Pigment Green
 PO = Pigment Orange
 PR = Pigment Red
 PV = Pigment Violet
 PW = Pigment White
 PY = Pigment Yellow
